## MICROLEARNING TOPICS INCLUDE:

- Reality Training
- Health and Wellness
- Patient Handling
- Search and Rescue
- Mass-Casualty Response
- Fire Service Management

Leverage technology to make daily briefings and other short windows of training time more effective for your department. FireRescue1 Academy includes a vast library of single videos perfect for microlearning. And with our full-service learning management system,

you can make kitchen table learning count by tracking training completed as a group with just a few clicks.

- Use your 5-15 minute windows available during station time to communicate key concepts
- Break up learning into shorter “bursts” to drive firefighter engagement and retention
- Smaller segments are ideal for adult learners who may have short attention spans

## MASTER CLASSES

The only place to experience Gordon Graham's legendary presentations online!

Master Class courses feature nationally renowned speakers and leaders in an up-close and personal format to tackle tough issues of leadership, department and people management, and risk management. Available as an add-on purchase to your agency's FireRescue1 Academy subscription.

- Foster career development and inspire current and future leaders to grow
- Enhance or start a company/chief officer development curriculum
